

FL PREMADE POUCHES PACKAGING MACHINE SERIES

FL 1.7 UP TO 4.2
WALKING BEAM AND
CARROUSEL SERIES

Reliable Pre-made packaging machines for new age To those who look for the most reliable inline pre-made packaging machinery

FL PREMADE POUCHES PACKAGING MACHINES

For those customers that prefer to pack in ready-made pouches, FLTecnics offers its PMP machines series, which start from compact and medium speed to large equipment for high speed and big format sizes.

FL Tecnics can offer two different

technologies, walking beam and inline carrousel, depending on client's requests, to guarantee the project success.

Our machinery range include two different pouch feeding systems, infeed belt and magazine system, and can pack all type of sachets and pouches (spouted, zipper)

As a complimentary solution, our FM Series, pouch forming machines, allow our customers to produce their own packages to save operating costs and increasing their production flexibility

CARROUSEL MODEL				FL 2.6			FL 3.2			FL 4.2		
EXECUTION	MIN	MAX	VOL. MAX (CC)	MIN	MAX	VOL. MAX (CC)	MIN	MAX	VOL. MAX (CC)	SPEED UP TO

FEATURES AND BENEFITS

Our fill and seal packaging machinery range has been designed keeping all the features as standard in all FLTècnics machines, such as versatility, flexibility, low maintenance costs and quick format changeovers.

Compact, robust design, and inline operation, with easy access to all mechanisms, are highly appreciated in the food, chemical, pet food and beverages industries. Autoclave "retort" applications are also our expertise, by offering a reliable equipment that guarantees sealing integrity.

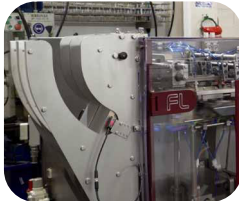

POUCH
INFEED
BELT

POUCH INFEED CONVEYOR BELT

- Servo-motorized with integrated pick & place.
- Fully automatic change over
- Stand up pouches with Zipper, shapes, spouts and 3-4 side seals sachets.

COMPACT
POUCH
MAGAZINE

COMPACT POUCH INFEED MAGAZINE

- Compact design integrated on machine main frame.
- Special for stand-up pouches and 3-4 side seal sachets.
- High capacity and easy pouch loading system.

SANITARY
DESIGN
FRAME

MACHINE FRAME IN STAINLESS STEEL AISI 304.

- Sanitary design, frontal plate without housings and without exterior orifices, in compliance with pharma & food requirements.
- Robust and stable, with vibration free while running.
- Frontal plate 20 mm thick.

AUTOCLAVE
PROCESS

RETORT APPLICATIONS

- Top sealing integrity.
- Multi-ingredients products: ready to eat & pet food.
- Multiple fillers.

SOLID FILL

For powders, granulates & pieces:

- Mass and magnetic flow meters: Endress+Hausser, Bopp & Reuther.
- Piston fillers with pneumatic or servomotor operation.
- Customized fillers for special applications.
- Innovative system of filling correction in real time, standard on all our flow-metering dosing system

LIQUID FILL

For powders, granulates & pieces:

- Auger filler, Volumetric cup filler lineal and rotary, designed and manufactured by FLTècnics.
- Multi-head & lineal weighers.
- Counting filling systems.
- Customized fillers for special applications
