SP12

MULTILANE STICKPACK

Distributed by Matrix the SP12 multilane stickpack machine is great for dosing powder, granules, solid, liquid, and pasty products.

The INVpack SP12 is a compact multilane VFFS machine produces a stickpack format and can work with film widths up to 1200 mm wide. Equipped with an industrial PC, touchscreen and mechanical actuation, it enables control of the basic parameters of the machine, such as pressure, temperature, sealing time and length, ensuring high-quality welds. The SP12 can produce stickpacks at rates of up to 70 cycles/min depending on the application. The SP12 offers a small footprint providing a valuable space saving benefit.

Perfectly suited for making single-dose stickpacks.
