SP9

MULTILANE STICKPACK

Distributed by Matrix the SP9 multilane stickpack machine is great for dosing powder, granules, solid, liquid, and pasty products.

The INVpack SP9 is a compact multilane VFFS machine and can work with film widths up to 900 mm wide. Equipped with an industrial PC, touchscreen and mechanical actuation, it enables control of the basic parameters of the machine, such as pressure, temperature, sealing time and length, ensuring high-quality welds. The SP9 can produce stickpacks at rates of up to 70 cycles/min depending on the application. The SP9 offers a small footprint providing a valuable space saving benefit.

Perfectly suited for making single-dose stickpacks.
